1. Since the generic/linking claims have been found to be allowable, the election requirement is withdrawn and all claims are rejoined.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kentaro Higuchi on 19 December 05.

The application has been amended as follows:

On line 3 of claim 3 and again on line 5 of claim 3, "case" has been changed to -blade--.

On line 4 of claim 15, "rotary" has been changed to -cutting--.

On line 3 of page 1 of the specification, after "2002", --now patent number 6,782,785—has been inserted.

3. The following clarification of the drawings have been approved by the examiner and agreed upon by applicant.

The drawings received 26 May 04 are to be considered the formal drawings.

However, they are missing the important figure 1a. Figure 1a may be taken from the

drawings received 02 March 04 and added to the formal drawings to make a complete set.

4. The following is an examiner's statement of reasons for allowance:

None of the prior art showed parallel racks as claimed.

For example, Almblad shows parallel racks (figure 3), but they are not both on a cutter cassette. Another close piece of art is Wright, who shows parallel racks, but they are not both on a cutter cassette.

Also made of record but not making Applicant's claims obvious are patents to Longrod and Greenhouse show blades with rack and pinions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
